# Serious Reverses To British Armies After Nine Days Fighting, Reported

## FIERCE

**Exultation of All Classes In Berlin Over News Of British Defeat**

**LITTLE ATTENTION IS GIVEN EASTERN CAMPAIGN**

**IN VIEW OF WESTERN**

Populace Confident That the Task On West Line Will Be Speedily Finished and Sharp Work Will Be Made of Clearing German Soil of Russians.

(Associated Press Telegram) Berlin, Aug. 28.—(By wireless to the Associated Press via Sayville, L. I.)—It is difficult to describe the fierce exultation of all classes in Berlin over the news of the British reverses at Maubeuge, as announced officially from army headquarters today.

The German resentment against England for having "injected herself into this conflict," and for calling in Japan, a yellow race, is so deep that news of the surrender of the British army on the continent would be received with more joy and satisfaction in Berlin than tidings of the fall of Paris.

It is reported here today that a portion of the British force is at present shut up in Maubeuge. The Berlin populace, inspired by the announcement from military headquarters that the iron ring is making its way around the French, British and Belgian forces from Cambrai to the Vosges, exhibits little concern regarding the situation on the east frontier of Germany. It has full confidence that the task on the west line will be speedily finished, and that the victorious German armies will then make sharp work of clearing German soil of the Russians.

A correspondent of the Berlin Tageblatt reports that Louvain, in Belgium, were bitterly punished for the uprising of its civilian population, has almost ceased to exist.

**FOREIGN COLONIES EXTEND THANKS TO GERMAN GOVERNMENT.**

(Associated Press Telegram) Washington, Aug. 28.—"The French and English north armies on the Sambre and Meuse rivers have been surrounded by German troops on all sides as a result of the latest fighting," says a wireless from Berlin today to the German embassy. The message adds that the French east army has been partly driven to the south. This has prevented communication.

**UNKNOWN, SHOT YOUNG SENTINEL WHILE ON DUTY**

(Associated Press Telegram) Montreal, Aug. 28.—Sixteen year old Gordon Betts, private in the Fifth Royal Highlanders, was shot in the eye and killed today by an unseen assailant while on sentry duty at the canal at Soulanges. Since the outbreak of the war a guard has been placed over all canals in the dominion to prevent their being injured by dynamite. Soldiers at Soulanges, guarding the canal have been fired on repeatedly during the last few days.

## British Troops Exposed to Attack of Five Army Corps; Both Sides Lose Heavily

(Associated Press Telegram) London, Aug. 28.—Premier Asquith announced in the House of Commons today that the British troops in Wednesday's fighting were exposed to the attack of five German army corps. The losses on both sides he said, were great.

Premier Asquith said: "We have heard from field Marshal Sir John French, commander in chief of the British expeditionary force, that in the fighting which took place between his army and the enemy on Wednesday, August 26, and which appears from French official reports to have been in the neighborhood of Cambrai and Leclateau, our troops were exposed to the attack of five

## NURSES

**Killed by Officer While Attending Wounded On Battlefield**

**ACCORDING TO SWORN STATEMENT AT WASHINGTON**

**OF RED CROSS SURVIVORS**

France Has Submitted Alleged Atrocities Committed By Germany Which is Said to Exemplify the Savage Character of the War.

(Associated Press Telegram) Washington, Aug. 28.—France has submitted to the United States and other neutral governments a sworn statement that after an engagement at Moncel, a German officer fired on three Red Cross nurses killing two and wounding the third.

Marcelle Jouy, a nurse who was wounded, swore that after the battle on August 15, she was attending the wounded with two other nurses when a German officer opened fire on them from a distance of less than thirty feet. A bullet shattered her arm, she stated, and she fainted. On recovering consciousness, she found that her two companions were dead beside her with bullets in their bodies. All three nurses, her statement says, plainly were in the insignia of the Red Cross.

The French government, protesting that the act is in violation of the Geneva convention of 1906, says it exemplifies the savage character of the war.

## FOUR KILLED IN EXPLOSION ON TANK CAR

(Associated Press Telegram) Eunice, La., Aug. 28.—Four persons were killed and three others probably fatally injured today near Savoi, La., when gasoline, in a tank car of the New Orleans, Texas and Mexico railroad, exploded. The explosion occurred several hours after the tank car had been derailed in a wreck.

Wire communication to the scene was interrupted by an explosion but from the best information obtainable here the known dead are:

Homer S. Baggett, assistant superintendent of the Dequincy division of the road.

M. Robinson, member wrecking crew.

M. K. Nelson, member wrecking crew.

George Pettifield, brakeman.

Three men were brought to a hospital here probably fatally wounded. The gasoline car was part of a through train from Beaumont to New Orleans. Soon after the derailment a wrecking train was sent from Dequincy in charge of Baggett.

The explosion occurred when a derrick slipped. It is believed this caused a spark, igniting the oil.

French Battery Waiting to Shoot German Dirigibles and Aeroplanes.

The French army has in the field guns especially designed to bring down aeroplanes and dirigibles. These have succeeded so far in the war in destroying a number of airships flying over their troops. In order to get out of range of these guns airships must fly so high they can see little of what is below them.

## German Ambassador Assures Bryan That Messages From Berlin Contain The Truth; Defends Airship Attack

(Associated Press Telegram) Washington, Aug. 28.—Count von Bernstorff, the German ambassador, conferred with Secretary Bryan today on the censorship at German-owned wireless stations. Secretary Bryan said afterward that the question still was unsettled.

The ambassador, touching on the question of anti-German sentiment, said he felt the American people must realize that although delayed and censored, messages from Berlin have brought the truth, and that many reports from London have been disproved. Fairness, the ambassador said he believed, would result in an unprejudiced view. Fighting on the Russian border, the ambassador said, had merely been clashes of outposts. The country is open and unfortified, he explained.

**AMERICAN NURSES VOLUNTEERING FOR EUROPEAN SERVICE.**

(Associated Press Telegram) Washington, Aug. 28.—Hundreds of American nurses and surgeons have volunteered for service in Europe, and officers of the Red Cross are busy selecting nurses for a European expedition.

It was said there probably had been 100 offers of service for each selection made.

Thirty surgeons and 130 enrolled Red Cross nurses are to be included in the expedition. "I have been breaking hearts with each selection," said Miss Jane A. Delano, chairman of the general nursing service of the Red Cross.

"Our nurses have been clamoring to go to the front and it is a most difficult task to single out the women for the strenuous work abroad."

Major Robert U. Patterson, United States army medical corps, in charge of the selection of the surgeons has faced practically the same conditions.

## 200 SOLDIERS ANNIHILATED BY SHRAPNEL

(Associated Press Telegram) Folkestone, via London, Aug. 28.—A number of Belgian wounded from Namur have arrived here, but it is difficult to get any connected account of the fight there.

On Saturday a German shell exploded in Marchevette fort and put the largest gun and one six-inch gun out of action. Two hundred Belgian soldiers while trying to escape were practically annihilated by German shrapnel and machine guns.

the towns reported captured by Russians were undefended and unimportant points. No Russian dispatches, the count declared, had mentioned engagements with more than one of the Prussian army corps.

**WAR FORCED UPON ENGLAND BY GERMANY**

SIR EDWARD GREY SAYS PROPOSAL FOR BRITAIN'S NEUTRALITY WAS IMPOSSIBLE

It Provided for Allowing Emperor to Fight the Czar, France's Sworn Ally.

(Associated Press Telegram) London, Aug. 28.—Answering a question in the House of Commons today Sir Edward Grey, the foreign British secretary, declared he had seen an incomplete publication by the German government purporting to contain certain proposals alleged to have been made with the idea of securing French and British neutrality during the war.

The circumstances, Sir Edward Grey said, were as follows:

"It was reported to him one day that the German ambassador in London had suggested that Germany might remain neutral in war between Russia and Austria-Hungary if Great Britain would remain neutral and secure the neutrality of France. The foreign secretary replied that this seemed possible. It transpired, however, that the German ambassador's proposal was that Great Britain should remain neutral and secure the neutrality of France if Germany went to war with Russia. This was quite a different proposition, the foreign secretary continued and in view of France's alliance with Russia, on which could not be entertained."

As soon as the misunderstanding was cleared up the German ambassador sent an explanatory message to Berlin saying that the German telegram had not been published, although one based on the initial misunderstanding had been given out.

ed out, may be carried out from air as well as from the siege guns.

When the count was shown today's news dispatches from Berlin, in which the various generals in command of the westward advancing German armies were named, he listened with great interest.

"This is the first time," he said, "that I have heard it stated where our generals are."

The names of the commanders as well as the regiments engaged have been kept secret even from the highest officials in the empire.

Before he entered the diplomatic ante-room he inquired of a messenger if other diplomats were present. The messenger answered that the minister from Santo Domingo was waiting.

"Well, we are not at war with him," the ambassador remarked, "I can go in."

**SHEER WEIGHT OF GERMAN BATTERIES TAKE THEM FORWARD.**

(Associated Press Telegram) London, Aug. 28.—The Times Rouen correspondent describing the battle of Mons from the accounts of British wounded says the English artillery was magnificent but there was not enough of it in comparison with the enemy's.

There is universal testimony that gun for gun both the English and French are superior to the Germans.

"The allies shells burst with-out fail. The German gunners find the range smartly, but their shells frequently fail to burst and not infrequently miscarry and fall short. The sheer weight of their massed batteries carried them forward."

"Their infantry also advanced in close order. Their losses beyond question are greater than those of the allies but so unfortunately were their numbers. They came and came again. All Sunday the English held their ground. On Monday morning came the order to retire."

## CONGRESS MAY ADJOURN ON OCTOBER 1ST

(Associated Press Telegram) Washington, Aug. 28.—With prospects of limiting the trust legislative program of the federal trade commission bill and the Clayton measure to supplement the Sherman law, it was predicted today that congress could complete its business by October 1. Whether it would adjourn depended however, on conditions arising from war in Europe.

## FIVE GERMAN ARMY CORPS ATTACK ALLIES AND LOSS IS HEAVY ON BOTH SIDES

Outcome of the Battle is Not Mentioned by General French—Berlin Reports That the Opposition Was Put to Flight Toward the West

## TEN MILLION SOLDIERS ARE ENROLLED IN RUSSIAN ARMY

While No Definite News is Allowed to Come Through, It is Known That Operations Are In Progress On a Tremendous Scale, and Germans Are Throwing Themselves Against the Entire Line of Allies With Unquenchable Fury.

A serious reverse to British arms on the French frontier is officially announced in Berlin. After nine days' fighting the Germans claim to have put the western line of the allies to flight. The English, it is asserted were defeated at Maubeuge, France, and the Franco-Belgian forces driven back toward Maubeuge.

Belgian attacks from Nancy and Antwerp were repulsed, it is declared. Field Marshal Sir John French, commander in chief of the British expeditionary force reports that his troops were attacked by five German army corps and cavalry Wednesday in the neighborhood of Cambrai and Leclateau, and that their casualties were heavy. He does not state the outcome of the battle.

A newspaper despatch from Boulogne reports that the Germans broke through the French lines near Arras in the province of Pas de Calais but that the French have the situation well in hand.

British nurses are in force at Ostend. A press despatch from that town says the Germans are within 20 miles of the place.

A British destroyer has sunk an Austrian destroyer off Cortu according to a news despatch from Brindisi, Italy.

German troops are reported as taking the offensive in Belgian Congo.

The Russian military attaché at Paris is credited with the statement that additional Russian armies are about to invade Western Prussia with the intention of marching on Berlin.

Henry S. Breckenridge, American assistant secretary of war is in Vienna looking after some 400 Americans there. He expects to conclude his work at the Austrian capital today and proceed to Switzerland.

Cambria and Leclateau are French towns about ten miles southwest of Maubeuge and the description of the scene of the fighting reported by field Marshal French and announced in the House of Commons by Premier Asquith today fits in with the battle line indicated at Berlin.

## WAR RISK BILL IN HOUSE BY SPECIAL RULE

(Associated Press Telegram) Washington, Aug. 28.—The administration war risk insurance bill was placed before the House today under a special rule to expedite its passage.

Under the rule general debate on the bill was limited to two hours. The measure would create a government bureau to assume the war risk on vessels under the American flag or carrying American cargoes whenever it was impossible for the ships or cargoes to get insurance from private companies on equality with vessels of countries which issue war insurance.

It would not authorize the government to engage in general marine insurance in competition with private companies.

Ten million Russian soldiers have been enrolled under the standard of Emperor Nicholas according to staff officers of the Russian army who have arrived here from St. Petersburg. At sea also Russia seems to be waking up. The sinking of the German cruiser Magdeburg, reported yesterday, is hailed here as a significant and as showing that the Russian navy is no longer bottled up in the Gulf of Finland as has been reported.

Absolutely no news of any sort regarding military operations between Germany and the forces of the allies has been permitted to come from Germany to Rotterdam during the last two days.

It is known, however, that military operations on a tremendous scale are in progress and it is understood that the Germans are throwing themselves against the entire line of the allies with unprecedented fury.

## Socialist Manifesto in France Calls For United Nationality In Time of Country's Crisis

(Associated Press Telegram) Paris, Aug. 28.—3:50 a. m.—The Socialist party issued a manifesto requesting of M. Guesde to join the new cabinet of M. Viviani "at a time when the future of the nation and the life of France is at stake."

M. Guesde accepted membership in the cabinet without portfolio Wednesday night.

"At a time when one of the centers of industry and commercial life in France is threatened," the manifesto said, "national unity must be displayed in all its power. The whole nation must rise in defense of the soil and liberty. The head of the government thought that in order to sustain the nation in the contest he required the support of all particularly those who on behalf of the emancipated proletariat dread the crushing power of despotism." The manifesto adds that the Socialist ministers will see

that the truth is told, will show that the Republic is ready to fight to a finish and will make the production of arms and ammunition proceed more actively. The socialists feel, it adds, that they are fighting not only for the greatness of France, but also for the liberty of the Republic and civilization, so that the world may enjoy peace. They thus are insuring the welfare of the fatherland and saving of humanity.

M. Guesde, in an interview in the Paris Midi, today, says: "I go into the cabinet as an envoy of my party, not to govern, but to fight. If I were younger I would have shouldered a gun. But as my age does not permit this I will nevertheless face the enemy and defend the cause of humanity."

"I am confident of final victory, and without hesitation as to its subsequent role in France, the party will never deviate from the line of conduct laid out."

## QUICKFIRES HID IN RUINS, PLAYED HAVOC

WITH BRITISH REGIMENT THAT  
MADE GALLANT CHARGE AT  
CHARLEROI

Wounded, Returning From Battle-  
field Agree that Germans  
Use Quickfires Expertly

(Associated Press Telegram)  
Paris, Aug. 28.—6:27 a. m.—To the  
Matin correspondent at Chartres,  
France, a colonial infantryman  
wounded at Charleroi, related his ex-  
periences in the battle.  
"We marched with our African  
comrades against the Prussian guard,"  
he said. "We advanced in bounds,  
amidst bullets humming, using every  
bit of cover we could. We felt intox-  
icated with the joy of battle.  
"I couldn't say how long the action  
lasted. All I remember is that we fired  
our last shot within 50 yards of the  
enemy. Then it was the pitiless thrust  
of cold steel.  
"It would have given us the vic-  
tory, for, however intrepid and steady  
are the troops we fight against, there  
are no soldiers in the world able to  
resist the Turcos' bayonet charge. My  
regiment's effort alas, was broken by  
quick fires hidden in the ruins of an  
old factory. We were obliged to fall

back and we suffered heavily but we  
have the consolation of saying that we  
made enormous gains in the Kaiser's  
crack regiments.  
All the wounded at Charleroi agree  
that while the Germans' rifle shooting  
was poor they used the quick fire  
with great intelligence. Quickfires  
are easily unmasked and the French  
75-millimetre guns puts them out of  
action two minutes after they are lo-  
cated.

## PROMPT AID IS GIVEN REFUGEES FOR THEIR RETURN

(Associated Press Telegram)  
London, Aug. 28.—9:40 a. m.—Ref-  
ugees who arrived in London today  
from Flushing include Mr. and Mrs.  
Lorenz of Brooklyn, N. Y., and Mrs.  
Schott of Gardner, Mass., and Mr. and  
Mrs. Emil Knopf of Philadelphia,  
whose wants were promptly relieved  
by the American committee and trans-  
portation to America arranged for  
this week.  
Mr. Lorenz had been at Otrerweir,  
near Kiel for a month, trying to get  
away. He reached Rotterdam via  
Mannheim, Stuttgart and The Hague.  
The committee at the latter place  
financed them so they were able to  
get to London. Over 900 Americans  
are waiting at Mannheim to get away,  
according to Mr. Lorenz, some of  
whom said they were afraid to cross  
the channel because of the mines.

## CONTROL

OF OSTEND NOW IN THE HANDS  
OF LANDING PARTY OF  
BRITISH MARINES

Delay Experienced in Occupying  
Place Because of Local Au-  
thorities Objections.

(Associated Press Telegram)  
London, Aug. 28.—The British  
marines in force are now in control  
of Ostend, says a dispatch from that  
place to the Times. They continued  
landing all day yesterday and  
several quick fires were brought  
ashore early today.  
The men present a splendid ap-  
pearance and all are eager for a  
speedy meeting with the enemy. The  
work of disembarkation is proceed-  
ing with smoothness and precision.  
Meanwhile the approaches to the  
station are thronged with sightseers  
and citizens who express regret that  
the marines were not landed sooner.  
The British officers declare they  
have not landed sooner because of  
objections by the local authorities  
who held a meeting in the town hall  
where several prominent local offi-  
cials objected to the British land-  
ing on the ground that it would  
frighten the hotel visitors.

GERMANS HELD  
OSTEND'S MAYOR  
FOR BIG RANSOM.

London, Aug. 28.—Telegraphing  
from Ostend the correspondent of  
the Daily Chronicle says: "The Ger-  
mans on entering Tournai, Belgium,  
took the Burgomaster and threaten-  
ed to kill him and the other town  
officials if \$400,000 demanded from  
the town was not forthcoming in  
two hours. The inhabitants were  
able to save the life of the Burgo-  
master.  
"No German forces are within 20  
miles of Ostend. The German  
forces appear to be pressing forward  
all along the French frontier. I no-  
ticed all the names of towns had  
been obliterated from the sign posts.  
"While I was in Sourrai four  
German officers rode into the town  
which was entirely unprotected.  
baited at the hotel de Londres and  
asked if any German wounded men  
or prisoners were in the town. They  
received a negative reply and went  
away. The Germans first informed  
the hotel proprietors that they had  
been entirely successful against the  
allied forces at Mons and Charleroi  
and had killed ten thousand British.  
"I hear in reliable quarters that  
several thousand German troops sta-  
tioned in villages near Courtrai have  
been recalled to Charleroi by mes-  
sages. It seems that the Germans  
are hard pressed there.  
"The Ostend newspapers state  
that in a battle between 25,000  
French troops and 10,300 German  
troops four miles from Tournai the  
Germans lost 300 men."

## GERMANS ATTACK BELGIAN CONGO, CENTRAL AFRICA

(Associated Press Telegram)  
Paris, Aug. 28.—A dispatch to the  
Havas agency from Libreville, in the  
French Congo, says that the Belgian  
Congo has been attacked by German  
troops.  
The Belgian administration, in ac-  
cord with Great Britain, has taken de-  
fensive measures and has informed  
the French government of its action.

The Belgian Congo lies in the cen-  
ter of Africa. It is separated from  
Kamerun, the German colony of  
western equatorial Africa, by the  
French Congo.  
The area of Belgian Congo is esti-  
mated at over 900,000 square miles.  
The native population is given at 15-  
000,000. The entire European popu-  
lation in 1912 numbered 5,465. Of this  
3,307 were Belgians.  
The colony possesses a force of native  
troops, amounting to 18,000 men. The  
officers are Europeans, for the most  
part, Belgians.  
French Congo, or French equatorial  
Africa, is west of Belgian Congo.

For Non Support.  
"Policeman Heck Thursday night  
arrested Frank Johns, wanted in  
Cleveland on a charge of non sup-  
port. He will be held awaiting the  
arrival of officers from the juvenile  
court there."

## EMPEROR JOSEPH CONGRATULATES KAISER.

(Associated Press Telegram)  
London, Aug. 28.—A Ger-  
man official wireless dispatch  
was received last night by the  
Marconi Wireless Telegraph  
Co. It reads as follows:  
"Emperor William receiv-  
ed the following telegram from  
the Emperor of Austria: 'Vic-  
tory after victory. God is with  
us. He will be with us also. I  
most sincerely congratulate  
you, dear friend, also the  
young heroes, your dear son the  
Crown Prince, and the Crown  
Prince Ruprecht, as well as  
the incomparably brave Ger-  
man army. Words fail to ex-  
press what moves me, and with  
me my army, in these days of  
world's history.'"  
(Signed)

exchequer has taken steps to seize all  
Japanese balances in German mer-  
chant banks.

SITUATION IS  
CRITICAL, SAYS  
MILITARY WRITER.

(Associated Press Telegram)  
London, Aug. 28.—The Times' military correspondent on the French  
frontier says:  
"The news that the allies have re-  
tired from the line from Lecateau to  
Cambril, shows that active defense  
of the line from Lille to Maubeuge  
has been abandoned and that these  
two fortresses have been left tempo-  
rarily to look after themselves.  
"The necessity for holding the in-  
terval between the Scheldt and Cam-  
brai and the Sambre near Lecateau,  
is probably due to the need for hold-  
ing Mezieres. Once this point goes  
or the Meuse between Mezieres and  
Verdin is penetrated by invaders,  
the whole system of frontier defense  
of eastern France breaks down and  
if the field armies are inferior to the  
enemy, nothing remains but retreat  
to the Falaisses of Champagne."

## PRESIDENT IS DEPRESSED BY RECOLLECTIONS

(Associated Press Telegram)  
Bellows Falls, Vt., Aug. 28.—  
President Wilson, who passed  
through here today on his way to his  
summer home at Cornish, N. H., will  
celebrate with practically his entire  
immediate family, the birthday of his  
daughter, Mrs. Francis B. Sayre.  
After his arrival at Cornish this af-  
ternoon, there will be a family gath-  
ering.

With the president will be Mrs.  
Sayre and Miss Wilson, his daugh-  
ters, Mrs. Howe, his sister, Prof.  
Axson, Mrs. Wilson's brother, Mrs.  
Cottrill, his niece, and Josephine  
Cottrill, a grand niece.  
The president was depressed today  
because of recollections of his last  
trip to Cornish, when he was accom-  
panied by Mrs. Wilson. When the  
president's train stopped at Brattle-  
boro, Vt., a large crowd collected as  
Mr. Wilson stepped to the observa-  
tion platform of his car. He shook  
hands with all present.

## FEUDIST AS A WITNESS MAKES A CONFESSION

(Associated Press Telegram)  
Winchester, Ky., Aug. 28.—Just  
before the state rested today in the  
trial of "Red Tom" Davidson, who  
is charged with complicity in the as-  
sassination of Edward Callahan, for-  
mer sheriff of Breathitt county,  
"Doc" Smith confessed on the wit-  
ness stand that he was one of the  
men who fired the shots that killed  
Callahan. He testified that Davidson  
told him of a murder fund raised to  
pay the men who killed Callahan  
after the opening of the defense.  
Davidson took the witness stand and  
denied all the charges made by  
Smith.  
It is expected the jury will get the  
case tomorrow.

## ADVANCE GUARD IS PUSHED BACK ON MAIN BODY

(Associated Press Telegram)  
London, Aug. 28.—4:30 A. M.—  
A despatch to the Express from  
Lille announces that the advance  
guard of Germans is now at Pont-a-  
Marcq and Marchiennes.  
"There was heavy fighting at  
Marchiennes Thursday morning  
when the Germans broke through  
the French line," says the Lille cor-  
respondent.

The allies acquitted themselves  
well, however, and succeeded in  
pushing the German advance forces  
back on their main body. The Ger-  
man advance forces were also re-  
pulsed at Pont-a-Marcq. There also  
was fighting at Tournai, where the  
Germans were repulsed. It is be-  
lieved here that the Germans have  
occupied Valenciennes, but the Brit-  
ish are reported to have driven back  
the enemy near Mons."

## CANAL RECEIPTS BELOW EXPENSES; RESULT OF WAR

(Associated Press Telegram)  
Washington, Aug. 28.—As a di-  
rect result of war in France, receipts  
from the operation of the Panama  
Canal have failed to pay the expenses  
of the great waterway. Tolls during  
the first week of traffic in the canal  
amounted to only about \$15,000.  
That was not enough to pay operat-  
ing expenses, much less meet the in-  
terest payment on the vast capital  
invested.

Prof. Emory Johnson estimated  
that the receipts from tolls at the  
end of the first two years would be  
about \$24,000,000 or \$25,000,000.  
Canal officials, however, are con-  
fident that there will be a big increase  
in business as soon as the trade  
routes are re-established.

CIVIL WAR PILOT DEAD.  
(Associated Press Telegram)  
Gallipolis, O., Aug. 28.—Captain  
Samuel De Wolf, 89, retired river  
man and civil war pilot, died last  
night at his country home near  
Racine. He was well known from  
Pittsburgh to New Orleans.

The 59-hour working week has  
gone into effect in Switzerland.

CHAMPION BUTTER  
PRODUCER BRINGS  
FANCY SALE PRICE

(Associated Press Telegram)  
 Philadelphia, Aug. 28.—May Rima, adjudged the American butter fat producer of the world by the tests of the American Guernsey club last April, was sold for \$3,010 today at the sale of Edward B. Cassatt's herd of blooded Guernsey cattle at Devon. The entire herd, which had been estimated to be worth \$166,000, was sold for less than \$21,000. May Rima last year produced 19,339.5 pounds of milk which showed 1,059.55 pounds of butter fat. She was bought by John P. Crozer of Upland, the only bidder.

NEWARK GOLFERS  
WIN GOOD MATCH  
FROM COSHOCTON

Newark golfers at the country club had sweet revenge Thursday afternoon on their Coshocton friends for the defeat suffered by Newark on the last visit to the Coshocton country town. The local players were victorious in Thursday's contest by a score of 54-1-2 to 19-1-2, even if Coshocton did bring Clow, former Coshocton champion. Clow was pitted against Manning of the local club and while he was able to defeat Manning, the rest of the team, taken as a whole, failed to maintain the pace set by their leader.

By winning in yesterday's play, Newark prevented Coshocton from winning the league championship, an honor they will now be compelled to share with Cambridge.

PEACE LOOMS  
ON HORIZON OF  
SAN DOMINGO

(Associated Press Telegram)  
 Washington, Aug. 28.—Peace loomed today in turbulent San Domingo where the president, Bordas, has promised to resign and leaders of all elements agreed to disarm. The agreement was reached after conferences between the contending leaders and the American peace commissioners. Bordas will be succeeded by Ramon Baez as provisional governor, who will conduct elections. The commission is aided by former Governor Gort of New Jersey.

So far none of the warring powers has ordered the United States to pay a billion or suffer invasion.

The kids are always willing to leave their neighbors enough of their fruit so they can know how it tastes.

If the moving picture machines were not "censored" in Europe what wonderful business the "movies" would soon have.

The ammunition makers and the gun makers may be able to pay handsome dividends as a result of the war but think where the money comes from.

Although it will not be possible to export many apples this year, it should be remembered that the American hunger for apple pie has never yet been satisfied.

American citizens should be careful not to embroil their country in war, but it is hoped that dancing the German this winter will not be considered contrary to neutrality.

The Czar is evidently headed for Berlin as surely as the Kaiser is for Paris. Which will get there first? The Germans are fighting desperately in France and are making progress towards the goal but about all we know of the Russian movement is that three million of the Czar's vast army are marching on Germany. The biggest slaughter of the age is at hand.

## Fighting for Fatherland.

Many scenes of enthusiasm are being witnessed at railroad stations and steamship docks in this country, when reservists leave their homes here to fight for the old country. Not being under compulsion, this step is one they should reflect upon carefully. These aliens are commonly boys, in mind if not in age, and they may well ask advice of their wisest leaders.

When Greece declared war against Turkey, every other bootblack stand and fruit store in the large cities were stripped of its workers. Most of these young patriots had fathers and mothers and brothers and sisters at home. A winning fight against cruel Turkey meant better conditions of living for the old folks at home. Many of these Greeks had obtained a substantial foothold

here, with little established businesses. These they generously gave up, in most cases never to take them up again. It was a noble illustration of patriotic devotion.

Now the man who goes back may not be fighting at all to bring better conditions of living to his friends. This is a war of the kings and the captains and the diplomats. The princes and potentialities and powers have taken out among themselves and are bidding the common people fight for them.

The Poles have as keen an interest in this war as any of our alien elements. It is noticeable that few of them are going back. Those that come from Austria want Russia to win. Those that live in Russia want Germany and Austria to triumph. Government to them is not a friendly force, but a power that domineers and crushes. They have their little homes and jobs here, and live in peace and quiet far from the spies and prohibitions and exile of Europe.

Employers of labor and others, to whom these children of the shadow look for light and guidance, may well caution them against hasty return.

## A Message From Japan's Premier.

Count Okuma, Premier of Japan, has sent the following message to the American people by cable to The independently of New York.

"I gladly seize the opportunity to send, through the medium of the Independent, a message to the people of the United States, who have always been helpful and loyal friends of Japan."

"It is my desire to convince your people of the sincerity of my Government and of my people in all their utterances and assurances connected with the present regrettable situation in Europe and the Far East."

"Every sense of loyalty and honor obliges Japan to co-operate with Great Britain to clear from these waters the enemies who in the past, the present and the future menace her interests, her trade, her shipping and her people's lives."

"This Far Eastern situation is not of our seeking."

"It was ever my desire to maintain peace, as will be amply proved, as president of the Peace Society of Japan I have consistently so endeavored."

"I have read with admiration the lofty message of President Wilson to his people on the subject of neutrality."

"We of Japan, are appreciative of the spirit and motives that prompted the head of your great nation and we feel confident that his message will meet with a national response."

"As Premier of Japan, I have stated and I now again state to the people of America and of the world that Japan has no ulterior motive, no desire to secure more territory, no thought of depriving China or any other peoples of anything which they now possess."

"My Government and my people have given their word and their pledge which will be as honorably kept as Japan always keeps promises."

## Spirit of the Press

**A Long War.**  
Lord Kitchener's warning that the war may last three years or more and that it will strain all the resources of the British Empire is a professional opinion that cannot be waved lightly aside.—New York World.

**Women Suffrage.**  
Advocates of women suffrage failed to get official recognition they may have hoped for at the conventions in Columbus this week, but are not discouraged over their prospects of having their proposed amendment adopted this fall. Suffrage is not a party question. The suffragists' chances of getting party endorsements were hampered through the impression that prevailed, whether true or false, that suffrage meant a dry Ohio. Politicians and candidates were afraid of the issue as a party measure on this account, though many of them favored suffrage as a general proposition. The suffrage question is too big a question to be settled as an annex to any other question. It must be dealt with on its merits on the basis of whether women should have the ballot and whether it would improve government to give it to them. On this basis it will be settled in due time—if not this year, then in another.—Akron Beacon Journal.

**As to Atrocities.**  
The war has reached the stage where atrocities are being charged against either side. The Belgians are insistent in accusing the Germans of violating the laws of war in their actions in conquered territory. The French reports echo, and apparently accept, these charges. On the other hand the Germans make emphatic denial, countering with the charge that they have been fired on by Belgian civilians in occupied towns, and have been forced to make reprisals.—Pittsburgh Dispatch.

## Pointed Observations

There may be as much wisdom in preparing for peace in time of war as in preparing for war in time of peace.—New York World.

"My thought is of America," President Wilson's saying, still remains full of patriotic and useful suggestion for us all.—Chicago Herald.

The war in Europe will not deter the coal mine owners from advancing the price of anthracite to \$7 per ton on January 1.—Hartford Times.

Patten, the Chicago wheat king, had trouble in getting a ham sandwich. This is not a good summer for kings of any description.—Washington Star.

Esperantists and all their ilk are superseded now. A real universal language is heard at last. It comes from the cannon's mouth.—Providence Tribune.

Representative Mann stated in Congress yesterday that The Hague peace tribunal was a useless body. Not exactly useless, it merely has the "out of order" sign hung on it for the time being.—Chicago Herald.

The Kaiser is reported determined to hold Kiau-Chau. If you have never experienced the difficulty of holding a sneeze, you can sympathize with the Kaiser.—Manchester Union.

The garden-truck farmer who just wants a chance will get it on the morning of September 1, when the city's four open markets will be ready, with no rent to pay. If he believes all he has ever said about the middleman, he will be on hand with his goods.—New York World.

Peru has sent a vessel through the Panama Canal. It was not the familiar Peruvian bark of other days, but a new torpedo-boat.—Kansas City Journal.

The best way to learn how to sing "My Country 'Tis of Thee" is to be so fixed that you are willing to pay \$500 to sleep on the barber shop floor of the ship that will bring you to this country. The American chorus now returning will be the lastest in the world.—Brooklyn Eagle.

**She Wouldn't Care.**  
Hostess (at party)—"Does your mother allow you to have two pieces of pie when you are at home, Willie?" Willie (who has asked for a second piece)—"No, ma'am." "Well, do you think she'd like you to have two pieces here?" "Oh," confidently, "she wouldn't care. This isn't her pie!"—Hartford Times.

## GERMANY'S MENACE

## Sidelights on the Great European War

The Russians who are reported to be moving towards Germany to the number of 3,000,000 or more men, are heavy and slow in movement, but their rank and file knows no thought but that of obedience. A trustworthy correspondent writes that he has seen entire regiments of Russians wiped out to a man by the enemy's artillery are apparently without an idea of retreat.

A Russian automobile field kitchen consists of a motor truck carrying the stock of provisions and a trailer containing the kitchen designed to prepare food and coffee for 250 men at one time or 2,000 in 24 hours. Food and coffee are transferred to fireless cookers to be taken to the men in the field. The coffee pot holds 20 gallons, and one kettle has a capacity of 53 gallons.

Nancy, the old capital of Lorraine, is a city of 110,000 people. It surrendered to the Germans in 1871 without resistance.

The field telegraph and telephone, says the World's Work, have been developed into a combined instrument about the size of a large field glass weighing 4-12 pounds. An insulated wire weighing 75 pounds to the mile which can be used living on the ground can be laid from a reel or an auto at 10 miles an hour or can be carried on horseback. The commander can maintain communication with each unit of his force at all times, as these lines can be laid as fast as troops can advance against the enemy. The commander also uses motorcycle and aeroplane messengers, signal flag and heliograph service and sometimes homing pigeons are used.

James F. J. Archibald, who has seen service in fifteen campaigns and has seen sixteen armies in actual international war, writes that it was Russia's line of communication that defeated her in Manchuria, not the Japanese. Her distance from the base of supplies brought defeat to Russia, but today a different situation arises. The problem of transportation does not enter largely into this campaign. The theatre of war is comparatively small but there is one serious problem, the commissariat and that,

says Mr. Archibald, has been fully anticipated by Germany and Austria. It remains to be seen whether Russia and France have food supplies sufficient to maintain their forces. Another writer points out the fact that Russia which next to the United States is the largest wheat growing country will be able to get supplies from her eastern provinces.

In 1913 the United States total exports amounted to \$2,465,884,149. Of this sum the European nations now at war took \$1,190,463,425, sending us in return goods valued at \$709,498,119. In other words 44 per cent of our foreign trade is with the nations now at war.

Heligoland is said to be proving troublesome for the British fleet. It is an island in the North sea, 30 miles off the mouths of the Elbe and Weser, which England gave to Germany in exchange for Zanzibar, under the ministry of Salisbury, against the protests of the navy officers. Germany has made the little island, which is only a mile long and a third of a mile wide, a perfect Gibraltar, and is

One of the hardest things for a married man to understand is why a bachelor imagines that he needs a vacation.

For centuries Europe has been divided between four main religions. The Moslems up to two years ago still counted 8 millions of Turks, Bosnians and Albanians, but now there are only three or four millions in Europe. The protestants principally Germans, English, Swiss and Hungarians are about 100 millions. The Roman Catholics in all the Latin countries, southern Germany, Bohemia, Albania Croatia, Russian, Austria and Russian Poland are about 180 millions. The Greek Catholics include Russia, the Balkan countries and a few provinces in the Austrian empire. Their number is about 110 millions. These figures are given by Albert B. Hart, professor of history in Harvard university.

The Russian-Japanese war lasted 20 months. The number of Japanese killed and death from wounds averaged 54 per thousand a year. Disease claimed 25 per thousand a year.

## HOW TO BE HEALTHY.

Each morn, before eating, I walk seven miles, the journey repeating in different style, before I eat dinner,

and thus, you may see, my health is a winner — just gaze upon me! There is for the glutton but sickness and grief; I never eat mutton or chicken or beef; I never eat puddin' or doughnuts or pie; 'tis me for the wood-en, old turnips, say I! A beet or a pumpkin, will make enough fat; the vitals my trust in will thrive upon that, I never drink water that hasn't been fried, for cooking will slaughter the microbes inside. I boil it and, scow it and strain through a rag, and then I go to it until I've a jag. I do not wear clothing, for duets are a snare; I view them with loathing, and always go bare. I eat in a stable and sleep in a tree. You think health's a fable? Just gaze upon me! I graze with the horses and browse with the kine, and science indorses this method of mine; Oh, ye who are ailing, it's useless to weep! 'There's one cure unfailing, come, eat with the sheep! 'There's one man who whistles with joy all the day; I'm living on thistles and carrots and hay!

The La Rudilla Klub was very pleasantly entertained Wednesday afternoon by Mrs. Albert Jakeway in Locust street. The afternoon was spent in sewing and conversation, after which all the members and guests, Misses Mary and Grace Kocher of Moxahala, were invited to the dining room, where a three course lunch was served.

At her country home, the Licking Jersey farm, Mrs. M. C. Harter entertained the Jolly Stitches on the club day. After a busy hour spent with the needles a dainty luncheon was served the following: Mrs. E. C. Beard, Mrs. C. R. Meritt, Mrs. T. C. Jury, Mrs. Charles Frydth, Misses Agnes Harter and Elizabeth Meritt and Bryan Harter, Arthur Fulk, Paul Harter.

The next meeting will be September 8 at the home of Mrs. T. C. Jury.

### CURTIS-HANLEY.

A wedding of interest to many Newark people took place in Coshocton on Thursday at noon when Miss Delcie Hanley was united in marriage to Mr. Raymond S. Curtis. The service took place at the parish house of the Sacred Heart church. Father Slattery reading the ring service. A wedding dinner and reception followed at the bride's home. She was given in a basque dress of white net and wore a corsage bouquet of roses.

Mr. and Mrs. Curtis left for a trip up the lakes to Duluth, and on their return will be at home in Cleveland, where Mr. Curtis holds a responsible position as accountant.

### WILL HOLD OIL IN BIG TANK FOR BETTER MARKET

Work is being completed on a mammoth storage tank for the Columbus Gas and Oil company, just east of Clay Lick. The tank is located on the railroad one and a half miles east of Clay Lick and is on the M. K. Smith farm.

The tank is an exceptionally large one having a capacity for 36,000 barrels of oil. It has a base of 35 by 95 feet. The oil will be piped to the tank by the Buckeye Pipe line, and as the oil will flow into the huge tank where it will be kept until there is a market for it. It will be a great convenience for the company as the oil will be held until there is a market or until it can be fed into the pipes.

The Columbus Gas and Oil company has large holdings east of the city, and they are in charge of J. S. Burcland, field superintendent.

### HAYNES SUFFERS FRACTURED LEG IN GAME OF BALL

While taking part in a game of baseball at the Masonic picnic at Buckeye Lake Thursday afternoon, Arthur Haynes, son of James Haynes, suffered a fracture of both bones of his left leg between the knee and the ankle. Three physicians on the ground reduced the fracture, the young man being removed to a cottage where he was made comfortable.

Haynes was on third base when he attempted to score. The ball was thrown to Arthur Davis, catcher of the opposing team and the two men collided. Haynes leg snapped. Davis suffered a severely bruised left leg and for a time it was thought that the muscles were torn but he was soon able to walk. Davis is a barber employed at the Lyon shop.

## REFUGEES ARE ARRIVING AT FOREIGN POINTS

(ASSOCIATED PRESS TELEGRAM)

London, Aug. 28.—1:20 p. m.—The American embassy has received a dispatch from American Ambassador Gerard at Berlin by way of Copenhagen stating that a special train would arrive at Flushing this morning bringing 650 American refugees from Germany. These passengers have been left stranded and are being sent through by the embassy.

Another dispatch from Bergen, Norway, says that a number of Americans have arrived there from Russia. They report that very few of their countrymen are left in Russia. Nine hundred Americans left on a special train from Geneva this morning. The train is due in Paris some time today.

### GERMANS PLACE QUICK FIRE GUNS NEAR BRUSSELS.

(ASSOCIATED PRESS TELEGRAM)

London, Aug. 28.—The Exchange Telegraph company publishes a dispatch from its Ghent correspondent, saying that the Germans have placed a number of quick firing guns in the outskirts of Brussels, principally of the north side, from which direction the Belgian troops in Antwerp would arrive for an attack.

Brussels is calm, the correspondent continues. The German flag has been removed from the town hall to the ministry of foreign affairs.

### RUSSIANS HAVE POSTAL SERVICE IN EAST PRUSSIA

(ASSOCIATED PRESS TELEGRAM)

London, Aug. 28.—The Russian embassy has received telegrams confirming the Russian occupation of Tilsit, a town in East Prussia, sixty miles northeast of Königsberg. It is added that the Russians made great captures and that the garrison and population fled. The Russians have established postal service in East Prussia and Russian stamps are used.

According to the embassy's dispatches, it was the Russian cruisers Bogatyr and Pallada which destroyed the German cruiser Magdeburg. The commander of the Magdeburg is said to have escaped.

## SUPREME COURT ASKED TO AID IN TAX DISPUTES

Columbus, Aug. 28.—The Supreme court was asked today to settle two tax controversies in Hamilton county. In the first prosecutor Pogue seeks, by quo warranto proceedings, to oust Charles A. Croom as a member of the Hamilton county budget commission. Pogue claims the law gives him the right to membership on the commission instead of Croom. In the second action, Auditor Darr seeks, by mandamus proceedings, to force the budget commission to levy for the city of Cincinnati, within the ten mill limitations, the sum of \$196,174.47 which, the auditor asserts, represents interest and sinking fund charges on city bonds issued between June 2, 1911, and August 8, 1913 without a vote of the people.

## Pertaining to the Fashions For Autumn

Written by  
A. SCHIFF

Who is now in New York.

Most women are anxious to find out about the Suits. And how changed they are! I have gone through every store of prominence on Fifth Avenue and Broadway, and I find that the Suits are very different. They are unlike any of the Suits of last season.

Some Coats remind one of the Cossack wraps; they are so full. Others are as severe in line as a man's garment, but all are about 44 inches long.

Still other Suits have, for instance, the long, interesting Redingote Coats!

Skirts are much wider and easier to walk in.

The changes of Fashion for Autumn are radical. But the Suits are beautiful—stunning, and really sensible. You will see a representative display of the new fashions in a few days at

## GERMANS' ROAD TO PARIS NOT VERY DIFFICULT

French Ministry Expecting a Siege Has Organized Into Safety Committee.

(ASSOCIATED PRESS TELEGRAM) London, Aug. 28, 3:15 A. M.—The Chronicle, commenting today on "the war's progress," says: "Since the great disaster which befell the allies in Belgium, a silence deeper than ever has been imposed by the censorship."

"From a message sent out twenty-four hours ago by the French embassy, showing fighting on the line between Cambrai and Leateau, it is apparent that the French have been driven back past their line of frontier fortresses to a point twenty miles behind that line."

"There is no longer any serious fortified obstacle between the German main advance and Paris. Under the circumstances it is not surprising that the French ministry has resigned and reconstituted itself as a committee of public safety."

"Meanwhile as if a siege of Paris was now looming foremost in their minds, their first step has been to appoint a general in supreme command of Paris and its troops."

**Not a Complete Surprise.**  
When William R. Hearst bought the New York Journal one of his managing editors, Julius Chambers, invited Hearst to dinner with him.

They went to a downtown French restaurant. Chambers had ordered the dinner, which was a good one, and Hearst and he had a pleasant time. Along toward the close of the meal Chambers said: "Now, Mr. Hearst, I am going to give you a treat. I have ordered something you probably never have eaten or seen."

Chambers nodded to the waiter, who brought in some French antiques. "You see," explained Chambers, "these are a great delicacy. You pull off the leaves and dip the ends in the sauce and eat the ends only."

Hearst smiled a little and followed directions. As they progressed Chambers said complacently: "Pretty good, eh? I don't suppose you ever saw an antichoke before."

"Well," Hearst replied, "I can't go so far as that. You see, Chambers, we had 400 acres of them growing the last time I was out at our California ranch."—Saturday Evening Post.

### Fans in the Eighteenth Century.

A letter in the London Spectator dated May, 1711, gives a most interesting description of an academy where ladies could be drilled in the proper use of their fans and initiated into the mysteries of "the angry flutter, the modest flutter, the timorous flutter, the confused flutter, the merry flutter and the amorous flutter." In the eighteenth century at dancing assemblies in London, Bath and other places of fashionable resort gentlemen chose their partners by "lottery of the fan." The fans of all the ladies present were placed in a hat, whence each gentleman had the privilege of selecting one, the lady to whom it belonged becoming his allotted partner for the evening. Of course such a custom entailed a great study of fans on the part of the gentlemen. Boswell, Steele and Pope found something to say about the fan, and Gulliver, enlarging upon the efforts of his predecessors, wrote a long poem in praise of the fan, attributing its invention to Venus.

### It's Easy to Peel Off Your Tan or Freckles

This is what you should do to shed a spoiled complexion. Spread evenly over the face, covering every inch of skin, a thin layer of ordinary microbe-killing cream. Let this stay on overnight, wash it off next morning. Repeat daily until your complexion is as clear, soft and beautiful as a young girl's. This result is inevitable. No matter how soiled or discolored the complexion. The way literally peels off the thin surface skin, exposing the lovely young skin beneath. The process is entirely harmless, so little of the old skin coming off at a time. Microbe-killing cream is obtainable at any drug store, one ounce usually suffices. It's a veritable wonder-worker. For rough, tanned, reddened, blotchy, pimples or freckled skin.

Pure powdered saxolite is excellent for a wrinkled skin. An ounce of it dissolved in a half pint witch hazel makes a refreshing wash-lotion. This renders the skin quite firm and smooth, indeed, the very first application erases the finer lines; the deeper ones soon follow.—Advertisement.

**Glowworms Use Anaesthesia.**  
Before he begins to feast the glowworm administers an anaesthetic. He chloroforms his victim, rivaling in the process the wonders of modern surgery, which render the patient insensible before the surgeon operates on him. The usual game is a small snail, hardly the size of a cherry, which in hot weather collects in clusters on the stiff stubble and other long, dry stalks by the roadside, remaining there motionless, in profound meditation, throughout the scorching summer days. It is in some such resting place as this that I have often been privileged to light upon the lampyris banqueting on the prey which he had just paralyzed on its shaky support by his surgical artifice.

But he is familiar with other preserves. He frequents the edges of the irrigating ditches, with their cool soil, their varied vegetation, a favorite haunt of the mollusk. Here he treats the game on the ground and under these conditions it is easy for me to rear him at home and to follow the operator's performance down to the smallest detail.—Henri Fabre in Century Magazine.

### First Game Law.

The first "game law" for the protection of wild animals and birds was enacted in 1068 by William the Conqueror. This decree of the Norman king was called a forest law, but its principal purpose was the preservation of game. Forfeiture of property was made the penalty for killing or disabling any kind of wild beast, while the slayer of a stag, buck or bear, if convicted, had his eyes put out. These laws, of course, applied only to the masses, since the royalty and nobility were permitted to kill as much as they pleased. In fact, the principal purpose of the pioneer "game law" was to provide sport for the few. The first parliamentary game law in England was passed in 1493. Game laws in America have become increasingly strict of late years, but they were adopted too late to save many species, notably the buffalo, from almost complete extinction.—New York World.

### Proved He Was Wrong.

In December, 1825, Relieff, the Russian nihilist litterateur, was condemned to death by hanging. The hangman's rope failed, and Relieff was thrown to the ground. In these circumstances a man's life is often spared even in Russia, and the emperor was inclined to mercy. But he asked a question. "Did the condemned say anything on regaining consciousness?" "Sure," was the reply, "he said that in Russia nothing could be done properly, not even the twisting of a rope." "Prove him to the contrary," answered the Muscovite ruler. And it was done.

### Holding Thumbs For Nilsson.

My professional vocation has brought me up against almost every conceivable superstition, from Brignoli's stuffed deer's head to the more commonplace fetish against thirteen as a number. But I never saw any one more obsessed by an idea of this sort than Christine Nilsson. She actually would not sing unless some one "held her thumbs" first. "Holding thumbs" is quite an ancient way of inciting good luck. One promises to "hold one's thumbs" for a friend who is going through some ordeal, like a first night or an operation for appendicitis or a wedding or anything else desperate. Nilsson was the first person I ever knew who practiced the charm the other way about. Before she would even go on the stage somebody, if only the stage carpenter, had to take hold of her two thumbs and press them. She was convinced that the mystic rite brought her good fortune.—"Memoirs of an American Prima Donna," by Clara Louise Kellogg.

"Yes; they told the minister to hurry because there was only a little gasoline left in their automobile, and they were twenty miles from home."—Exchange.

### EASY TO DARKEN YOUR GRAY HAIR

Try This! Mix Sage Tea and Sulphur and Brush It Through Your Hair, Taking One Strand at a Time.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home, is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning, all gray hair disappears and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. Agents, Hall's Drug Store.

### John O'Grat's House.

John O'Grat was the reputed builder of the John O'Grat house, the ruins of which are still pointed out at Duncan's Bay Head, on the northernmost point of the mainland of Scotland. Tradition is not entirely agreed as to the personality of John O'Grat. One legend states that he was a poor man who used to ferry passengers over to the island of Storma for a great fee. But the most popular story makes him the descendant of a Hollander, De Groot, who in the reign of James IV, settled in the vicinity, and it goes on to tell how John and his seven cousins would yearly meet to celebrate the memory of their ancestor and have a yearly quarrel over the question of precedence until finally John invented a method of settling the difficulty. He built an eight sided house of one room, with eight windows and eight doors, and an octagonal table in the center of the room, so that all might enter simultaneously, each to his own door, and there might be no head of the table.

### Not Polly Ticks.

During a political campaign a candidate for the legislature was driving through the country seeking votes among the farmers when he met a young man in farmer's garb walking by the roadside. Having in his mind a prospective vote, he stopped his horse and, saluting the farmer in a familiar manner, inquired: "Are you paying any attention to politics nowadays?" The young man stopped, looked at him suspiciously and drawled out: "No, stranger. That don't happen to be my gal's name, but if it was I wouldn't think it was any of your business."

This ended the interview as well as the process.—National Monthly.

## BRECKENRIDGE NOW IN VIENNA AIDING NEEDY

(ASSOCIATED PRESS TELEGRAM)  
Rome, Aug. 27.—Paris, Aug. 28.—Advises from Vienna report that Henry S. Breckenridge, assistant secretary of war at Washington, arrived from Berlin Wednesday and began the work of aiding the needy Americans promptly. Aided by Frederick C. Penfield, the American ambassador, he opened a relief bureau in the evening in the hotel Imperial. Special messengers were dispatched to the addresses of all Americans who had applied to the embassy for assistance, directing them to come personally to the bureau. The next day the bureau was crowded with Americans from early morning until midday.

## HEROIC RESCUE OF AN ENEMY BY A SOLDIER

(ASSOCIATED PRESS TELEGRAM)  
Paris, Aug. 28.—2 30 A. M.—A despatch to the Havas agency from Coulommiers, France, says "Among the wounded who have arrived here, is a German infantryman, an Alsatian by birth who came into the French lines during the night in Belgium. Carrying on his back a wounded French sergeant, thus saving him from falling into the hands of the enemy. The Alsatian himself, was wounded while rescuing the Frenchman."

## SOME KNOWN FACTS ABOUT RHEUMATISM

There are many things that are still unknown about rheumatism. The treatment of it is still far from satisfactory. Doctors realize this but nobody is more fully aware of it than the sufferers themselves.

A tendency to rheumatism once established, the pain often returns with every change of weather, showing that the poison is still in the blood awaiting favorable conditions to become active and cause trouble.

One fact is known and acknowledged by all medical writers and that is the rapid thinning of the blood when the rheumatic poison invades it. Building up the blood is the best remedy for rheumatism as the enriched blood is able to overcome or throw off the poisons of the disease. For this reason rheumatic sufferers should be interested in the success which Dr. Williams' Pink Pills have had in the treatment of this painful disease.

A book, "Building Up the Blood," will be sent free on request by The Dr. Williams' Medicine Co., Schenectady, N. Y. It contains directions regarding diet, baths and hygiene for rheumatic patients. Dr. Williams' Pink Pills are sold by all druggists everywhere.

## GERMAN CAVALRY BROKE THROUGH LINE AT CALAIS

But French are Reported to Have Advanced Rapidly and Now Command Situation.

(ASSOCIATED PRESS TELEGRAM)  
London, Aug. 28.—A despatch to the Times from Boulogne says it is asserted that German troops, presumably cavalry broke through the French lines near Arras in the province of Flanders. The French moved up with rapidity, it is declared, and have the situation well in hand. The despatch says that the allied troops are being swiftly arranged to deal with any further attempt to break through the lines between Dunkirk and Lille.

## DIABETIC GANGRENE.

## ST. LOUISVILLE TACKS.

For a long time automobilists have been annoyed by getting punctures from tacks while passing through St. Louisville, and as there have been numerous cases of trouble there from alleged speeding, it has been generally believed that tacks were strewn for spite by someone, and steps were being taken to put a detective at work with a view to punishing the offender. It has recently been explained by St. Louisville parties that in sweeping of freight cars on the siding beside the road, tacks are swept into the street, and in tacking on and tearing off cards from cars, tacks are dropped.

## BREATHE FREELY! OPEN NOSTRILS AND STUFFED HEAD---END CATARRH

Instant Relief When Nose and Head are Clogged from a Cold. Stops Nasty Catarrhal Discharges. Dull Headache Vanishes.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of

the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

## "Gets-It" for Corns Sure as Sunrise

New Plan. Corns Shrivelled, Vanished. Until "GETS-IT" was born, nobody was ever sure of getting rid of a corn. Corn treatments nearly all contained the same ingredients, only some were liquid, some plasters, some "wrappers."

and some in salve form. Now comes "GETS-IT" with a newly discovered formula—the corn cure on a new principle and a simple plan that never fails. This is why "GETS-IT" has grown in three years to be the biggest-selling corn cure the world has ever known.

There's no more need of fussing with corns, no more digging or cutting. There's nothing to press down on the corn, nothing to irritate the flesh, to "pull" the corn or cause pain. Put two drops of "GETS-IT" on in two seconds. That's all. For any corn, callous, wart or bunion.

"GETS-IT" is sold by druggists everywhere. See a bottle, or sent direct by D. Lawrence & Co., Chicago.

## MAIL SERVICE FOR RESIDENTS OF SOUTH NEWARK

Congressman W. A. Ashbrook Takes Prompt Action on Behalf of People in South Side of Newark.

The post office inspectors who were in Newark some time ago made a number of recommendations for changes or improvements in the service, and among the recommendations made was the discontinuance of the daily carrier service to all points in South Newark, south of the creek. The inspectors thought that the people situated in that section should be served by the rural carriers instead of by the city carriers.

The recommendation of the inspectors was brought to the attention of Congressman William A. Ashbrook in Washington and Mr. Ashbrook promptly expressed his views on the matter and urged the department not to discontinue the daily letter carrier service to the people of the South end. He pointed out to them that the people have enjoyed this daily carrier service for years and it would be an injustice to ask them to change to rural delivery service at the present time. Mr. Ashbrook stated that about three hundred families would be effected by the change.

It is evident that Mr. Ashbrook's intercession on behalf of the people of the South end has borne fruit as the local Post Office has just received word from Washington that another inspector will be sent here soon, and in the meantime the previous order concerning the South end carrier service is to be suspended.

This timely action of Congressman Ashbrook on behalf of the people of the South end of Newark will be heartily appreciated.

### Illumination by Phosphorus.

Phosphorus is sometimes used for illuminating purposes, but the light is rather dim. The method is as follows, and it is serviceable when means of striking a light are not at hand: Take a long and narrow vial of the whitest and clearest glass, put in a piece of phosphorus about the size of a pea, upon which pour some olive oil heated to the boiling point; fill the vial about one-third full and then seal the vial hermetically. To use it remove the cork and allow the air to enter the vial, and then recork it. The empty space in the bottle will then become luminous, and the light obtained will be equal to that of a dull lamp. As soon as the light becomes weak its power can be increased by opening the vial and allowing a fresh supply of air to enter. In winter it is sometimes necessary to heat the vial between the hands to increase the fluidity of the oil. Thus prepared the vial may be used for six months.

### Squaretown.

The name "Squaretown" has been heard in designation of Adelaide, the capital of the state of South Australia. When that colony was projected it was established to the utmost detail on paper before the colonists set sail from England. The capital was laid out upon a surveyor's drawing board, and all that remained to do on landing was to find a flat piece of ground on which to drive the stakes. Adelaide is composed of four areas, a mile in each dimension, these areas being parted by two streets of noble width. Quite around the city extends a park land a mile in width, and this is maintained as a perpetual reserve upon which the only encroachments are such wholly public establishments as government house, parliament house and botanic gardens on the north terrace, the remainder being maintained as park and recreation grounds.—New York Sun.

### Four Sons of Fame.

It is a rarity for more than one member of any family to become famous. Nature seems coy about centralizing in more than one scion of the same house enough of stamina, grit, genius and ability wherewith to cut a niche in the temple of fame. The exceptions to this rule are very few. The Pitts, the Adamsons, the Van Burens and the Beechers have already been honored with this distinction, and to this roll of honor must be added the Fields. There is hardly a parallel case in history where four brothers attained such prominence as David Dudley Field, Henry M. Field, Cyrus W. Field and Stephen J. Field. These men were truly called four sons of fame, age, and four brothers in fame.—Magazine of American History.

### Very Red Tape.

A burglar entering a house by a ladder in a small Prussian town fell and broke his leg when making off with his booty. An inquiry into the accident revealed that, contrary to the bylaws of the town, the house owner's ladder was not provided with strong iron spikes at its base. The house owner was therefore ordered to pay all the hospital costs and further to give the burglar a substantial sum.—London Standard.

## OVERCAME SOME DEEP-SEATED ILLS

Nerv-Worth Soon Made Life Worth Living to a User on R. F. D., No. 5.

Another written statement showing the remedial power of Nerv-Worth, the new nerve tonic, appears below. The writer is Mr. Guy Crouse of R. F. D. No. 5, Newark. He speaks for himself:

"My kidneys and liver were badly affected and my stomach was in such bad shape that my food did not digest. There was a lack of energy and a general break-down. Would get up tired in the morning—sleep did me little good. Was always in a feverish condition. Worked some but was not able to do so. Didn't eat enough to keep me strong. Much improved after taking part of a bottle of Nerv-Worth, and my general condition is better than it was. Am beginning to feel like a new man."

Another wonderful Nerv-Worth record. Note again how speedily the medicine did its work. And yet Mr. Crouse's statement proves that Nerv-Worth had deep-seated ailments to go up against in his system.

If you are not well, consider whether or not your nerves are out of order. It's a good guess that they are and that Nerv-Worth's what you need. Take a free sample dose at the Evans Drug Store, Warden Hotel building. If you buy the medicine and it does not help you, your money will be refunded.

### How Brazilians Bag Wild Fowl.

From "The Log of a Tolling Stone," by Henry Arthur Broome, comes the following curious mode of bagging wild fowl in Brazil by way of economizing ammunition:

"The expedient is to get hold of a very large pumpkin and, after scooping out the meat and seeds inside, to cut two little eye-holes in it and then place it on the hunter's head. He then wades through the sedge and flags into deeper water up to his neck, where the wild fowl are feeding, who gather that it is merely a pumpkin innocently floating on the surface. The hunter then soon gets into the midst of his quarry and, seizing them by the legs, pulls them quietly under water, where he tucks them under a belt fastened round his waist, and as their companions presume that one unfortunate bird after another is only diving for food the hunter gets a vastful in no time and returns well satisfied to the 'boca'."

### Unexpected.

One of the dignitaries of the Church of Scotland was a minister of a remote parish before he leaped into fame, but was not considered a particularly eloquent preacher. At his suggestion extensive alterations were made in the church, which had the effect of sweeping away considerable seating accommodation. One day after the alterations had been effected he visited the church to see how it looked.

"What do you think of the improvements, John?" he asked the beadle.

"Improvements!" exclaimed John in disdain. "They're no improvements at all. Whaur are 'ee goin' to put the folk?"

"Oh," said the minister, "we have abundance of room, John, considering the size of the congregation."

"That's a' very weel the noo," retorted the beadle. "But what will we do when we get a popular minister?"—London Tit-Bits.

### Romance of a Picture.

The ups and downs of the artist's calling are well illustrated by the fortunes and misfortunes of the late M. Sukhoborsky, a Russian artist. His celebrated painting, "Nana," was exhibited all over the world and made a fortune for himself and others. After personally receiving some \$300,000 for its exhibition the artist, thinking it a good idea, sold "Nana" for \$21,000, and the dealer resold it at double the price. An American bought it and showed it all through the United States, Canada and South America and is reported to have made \$1,000,000 by the enterprise. On the other hand, the artist lost all his money by unfortunate investments and was reduced almost to beggary.

### Missing a Great Chance.

During an aviation meet in Chicago a professional pickpocket, who was locked up in jail pending trial, sent for the prosecuting attorney and begged to be released.

"But," said the P. A., "you picked a man's pockets. Of course you'll have to 'do some time.'"

"Well, sir," replied the prisoner, "I suppose you're right, and, to tell the truth, I don't mind the mere fact of being in jail; but, gee, it's durn to be here during this aviation meet, with everybody looking up in the air!"—Everybody's.

Lady Assistant. 16 1/2 N. Park Place. Dr. A. L. Wahn, Mgr.

The weather bureau finally "settled" the kind of weather for Newark today and Saturday and makes the laconic prediction rain. This will not be unexpected but neither is it necessary to keep this part of the country from joining in the European conflict. A duck's life will probably be more enjoyable however, and we always did like duck.

Mr Walter Ferguson has purchased the George Markley property, 116 Hudson Avenue. Mr Ferguson will make some changes on the interior of the home, and will occupy it. His present home in St. Clair street will be sold.

**Hurt By Train.**  
Frank E. Stewart, a Butler horse-trader, known in Licking county, was hit by a B & O freight train and hurled through the air for 20 feet. Several of his ribs were broken. He had been in Bellville and was walking home. Growing weary he sat down on the railway track and went to sleep.

**Some Gas Yet.**  
The Utica Gas Co. is starting a well on the farm of Mrs. Belle Jewell east of town, for the Buckeye State company, says a Utica exchange.

**Contractor Bailey drilled in a good half-million gas well for the Licking Window Glass company on the Geo. Harris farm east of town. Another well will be sunk on the same farm, farther north, at once.**

**May Have Raised the Dust.**  
William Mayer kept a tab on the vehicles passing his home on the Newark road south of Utica on two Sundays, August 9 and 16. On August 9th he counted 175 automobiles carrying 678 persons, 62 buggies carrying 148, and 7 motor cycles carrying 10 persons. No notice was taken of other vehicles. On August 16th 171 automobiles passed his home—other vehicles not counted.

**Receives Painful Injury.**  
Claude Hager, son of headquarter's officer Charles Hager, was painfully injured while at work at the Pharis Rubber company in West Main street on Thursday evening. He was striking tires from the core when the striking bar slipped and struck him above the right eye inflicting a deep gash. Dr. P. H. Cosner the attending physician found it necessary to take five stitches in the wound and he was later taken to his home in Linden avenue.

**Postmaster at Homer.**  
The United States Civil Service Commission announces that on Saturday, Sept. 12, an examination will be held at Homer, Ohio, as a result of which it is expected to make certification to the position of fourth class postmaster at Homer, and other vacancies as they may occur at that office, unless it shall be decided in the interests of the service to fill the vacancy by reinstatement. The compensation of the postmaster at this office was \$264.88 for the last fiscal year.

**LAST HOLIDAY FOR SOME STORES**  
Thursday was the last half holiday for some lines of business, the grocer, shoe and clothing stores having closed on Thursday afternoon for the last time. The dry goods stores will continue the practice at least until September 10. The hardware dealers will not close during September, but the jewelers will continue to take the half holiday throughout next month.

## CIVIL SERVICE EXAMINATION HERE SATURDAY

C. H. Coburn, special examiner from the state department, has notified Auditor Hursey that he will be in Newark Saturday to conduct a civil service examination for all county employees coming under the classified service, as has been announced in the bulletin heretofore issued.  
Saturday's examination will include superintendent and matron of the lunatic asylum, chief clerk of the district assessor, draftsman and assistant to county surveyor, janitors and jail matrons. Auditor Hursey announced that the candidates would meet at his office and the selection of the place for the examination would be made at that time.

## NOW HOPEFUL FOR RECOVERY OF M'MILLEN

For the first time since the man was injured, attendants at the Newark Sanitarium were hopeful for the recovery of Carey McMillen, who was struck over the head by Ezra Newton, insane man, when McMillen and Deputy Sheriff Rinehart attempted to arrest Newton on a luncy warrant. His condition is "more favorable," was the statement made this afternoon.  
Newton is still at large and no word has been received at the sheriff's office that the man has been seen since Tuesday when he eluded officers who searched for him through the underbrush on Flint Ridge.

## TOWN'S DEFENSE WAS MAGNIFICENT BUT INEFFECTUAL

(ASSOCIATED PRESS TELEGRAM)  
London, Aug. 28.—A 25 a m.—The Mail's correspondent at Rotterdam sends a telegram from Antwerp dated Thursday night, which says: "After a magnificent defense of two days by the Belgian town Malines was retaken by the Germans."  
"On the first day 20,000 Germans opposed the Belgians and on the second day 40,000 hung their might against a greatly inferior force. In the end the Belgians retired on Antwerp, leaving the enemy in possession of the town. The Germans immediately entrenched after ordering the inhabitants to leave. Witches and Heintdonck were destroyed by the retreating Belgians to prevent their being used as a cover by the enemy in their operations against Antwerp. Refugees at Roodendaal say the Germans possessed amazing knowledge of the roads. The German attack on Malines was furious and inspired by a desire to end the sort of which the Belgians were making from the town against their trenches and around Brussels."  
"The Belgians had made successful attacks on the German lines of communication and had seriously hampered their operations. This necessitated the return of the fourth German army corps which had already started for the south."

## APPLICANT MAY TRY TO MANDAMUS A STATE BOARD

(ASSOCIATED PRESS TELEGRAM)  
Cleveland, Aug. 28.—Charging that the state dental board was prejudiced against candidates for diploma from the Western Reserve school, and that the state board members "are behind the times," Joel Zsupnykik of Cleveland who took the board's examination twice, each time failing to pass, today threatened to bring mandamus suit to force the board to grant him a license to practice dentistry.  
It was stated that the first time Zsupnykik failed, in March 1913, his attorney complained to Mayor Baker who conferred with Governor Cox.

## NEWARK WOMAN IS TREASURER OF LUTHERAN LEAGUE

Officers were elected at the annual convention of the Lutheran League of the Zanesville district which was held at the Roseville Lutheran church, Zanesville. The officers elected follow: President C. A. Ports of Newcomestown; recording secretary, Miss Ethel Mast, Zanesville; corresponding secretary, Miss Florence Bowman, Newark; and treasurer, Frank Worvett with the exception of the treasurer the officers were all re-elected.  
The meeting was very well attended and a number of very interesting and helpful addresses were given. The special music was in interesting feature of the meeting.

## ATTORNEY GENERAL MAY SUIT AGAINST THE MANIPULATORS

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 28.—Representative Carey of Wisconsin, introduced a resolution today directing the attorney general to take steps to protect consumers against manipulators of prices of foodstuffs and requesting the president to embargo wheat and flour shipments from this country if in his discretion operations of speculators cannot be checked otherwise. It also directs the attorney general to inform the house what steps he has taken against the Chicago board of trade, and similar institutions in connection with the rise in wheat prices.  
There are more islands in Lake Huron than in any other known lake.

# TIRES AT BEFORE-WAR PRICES

## Goodyear Prices

It is Folly Today to Pay More  
30x3 Plain Tread .....\$11.70  
30x3 1/2 Plain Tread .....\$15.75  
34x4 Plain Tread .....\$24.35  
36x4 1/2 Plain Tread .....\$35.00  
37x5 Plain Tread .....\$41.95

There exists now a new, compelling reason for buying Goodyear tires. It results from War conditions.

These leading tires—built of extra-fine rubber, in the same way as always—are selling today at June prices.

You will find today a very wide difference between most tire prices and Goodyears.

### DUE TO QUICK ACTION.

Early in August—when war began—the world's rubber markets seemed closed to us. Rubber prices doubled almost over night.

Men could see no way to pay for rubber abroad, and no way to bring it in. We, like others—in the panic—were forced to higher prices. But we have since gone back to prices we charged before the war, and this is how we did it:

We had men in London and Singapore when the war broke out. The larger part of the world's rubber supply comes through there. We cabled them to buy up the pick of the rubber. They bought—before the advance—1,500,000 pounds of the finest rubber there.

## THE GOODYEAR TIRE & RUBBER COMPANY, Akron, Ohio.

Nearly all this is now on the way to us. And it means practically all of the extra grade rubber obtainable abroad.

Today we have our own men in Colombo, Singapore and Para. Those are the world's chief sources of rubber. So we are pretty well assured of a constant supply, and our pick of the best that's produced.

We were first on the ground. We were quickest in action. As a result, we shall soon have in storage an almost record supply of this extra grade of rubber.

And we paid about June prices.

### NOW INFERIOR GRADES COST DOUBLE.

About the only crude rubber available now for many makers is inferior. In ordinary times, the best tire makers refuse it. Much of it had been rejected. But that "off rubber" now sells for much more than we paid for the best.

The results are these:

Tire prices in general are far in advance of Goodyears. And many tire makers, short of supplies, will be forced to use second-grade rubber.

### BE CAREFUL NOW.

In Goodyears we pledge you the same grade tire as always. And that grade won for Goodyears the top place in freedom—the largest sale in the world.

And, for the time being, our prices are the same as before the war. We shall try to keep them there.

We accept no excessive orders, but dealers will be kept supplied. And we charge them, until further notice, only ante-bellum prices.

That means that Goodyears—the best tires built—are selling way below other tires.

## 23,000 Ton Turkish Warship Taken By British Government.

The Erin, this enormous and powerful warship, greater than anything else afloat, except the Agincourt, built with her by the Turkish government, has been seized by the British government. The vessel was built in England and would soon have been delivered to the Turks. She is now

defending England against the Germans. On the day following the declaration of war upon Germany it was officially stated that the government had taken over the two battleships, one completed and the other shortly due for completion, which had been ordered in England for the Turkish government. The two battleships,

which will bear the names of Erin and Agincourt, were originally (1) the Reshadieh, built by Vickers, 23,000 tons, armament ten 13.5 inch guns, mounted in twin turrets, and (2) the Sultan Osman I, built by Armstrong, 27,500 tons, armament fourteen 12 inch guns, mounted in seven turrets.

## MASONIC PICNIC AT BUCKEYE LAKE A HUGE SUCCESS

Central Ohio Masons, numbering between 4,000 and 5,000 persons, gathered at Buckeye Lake park Thursday for the annual outing, and practically every one of the number was enthusiastic in his praise of the splendid entertainment offered by the committee in charge and the park officials. Special arrangements had been made for the entertainment of the big crowds and every detail of the plans was carried out without a hitch.

The crowd was composed of visitors representing practically every Masonic body within a radius of fifty miles. Interurban cars brought the visitors to the park in large numbers during the morning and later in the day the automobile parties from all parts of Central Ohio.

A program of sports on land and water was carried out and the contestants entered into the events with enthusiasm.

Plenty of cars were provided for the crowds when the time came for departure and there were no unpleasant features to mar the day's pleasure.

The result of the various contests resulted as follows:

Fifty-yard dash for boys (15 years or under)—1st, James Heli; 2d, Robert Codner.

Three-legged race (boys 12 years or under)—1st, Dean Walcott; 2d, Albert Harrison.

## MORE DESTITUTE APPLY FOR AID THAN SINCE 1893

(Associated Press Telegram) New York, Aug. 28.—More destitute persons have applied to charity organizations for aid since the beginning of the European war than at any time since 1893 according to charity workers, who today announced that they had about reached the limit of their resources.

Secretary Frank J. Burno, of the charities organizations society, said that he was swamped with applications for help and added that as the charity societies are asked to help only the destitute families, there must be thousands of homeless men receiving help from other sources.

The biggest percentage of men out of work are drawn from the ranks of the stevedores and others who depend on the movement of trans-Atlantic freight.

Automobile

STUCK BY CAR.

NO ONE INJURED.

The automobile driven by Mr. Jerome Ferguson was struck by an interurban car at the corner of Pine and Maholm streets on Thursday afternoon.

At the turn the view of the track is obstructed and the car struck the machine. Mr. Ferguson had several women in the car, and while they were badly frightened no one was injured. The steering wheel and the fender of the car were damaged.

Light blue eyes are usually the most powerful; gray ones come next.
